Thunderbolt™ Updates

Your PC may need updates for the Thunderbolt™ ports to function properly. Select the computer manufacturer web link below for more details. If your computer manufacturer is not listed, please contact them directly to get the latest update.

Manufacturer	Comments
Asus	To ensure your Thunderbolt device functions properly, please download the latest Thunderbolt FW at www.asus.com/support/. If your product is a Motherboard with an Add-In-Card please go to www.asus.com/us/Motherboard-Accessory/ThunderboltEX-3/.
Dell	Important Information: You must update your computer's BIOS and Thunderbolt™ drivers to the latest versions at www.dell.com/support before using the Dell Docking Station or other Thunderbolt device. Older BIOS versions and drivers could result in the docking station or other Thunderbolt device not being recognized by your computer or not functioning optimally.
GIGABYTE	To ensure your Thunderbolt device functions properly, please download the latest Thunderbolt FW at www.gigabyte.com/Motherboard/GC-ALPINE-RIDGE-rev-10#support-dl-driver
HP	To update the BIOS and the software and drivers: Go to http://www.hp.com/support. Select Get software and drivers, enter your computer model number (located on the computer service label), and then select Find my product. Click the link for your specific computer, select your operating system, and then download the latest.
Lenovo	To ensure your Thunderbolt device functions properly, please download the latest Thunderbolt FW from the Lenovo "PC Technical Support" site at https://pcsupport.lenovo.com/us/en/ by selecting the product needed for updates.

Manufacturer	Comments
MSI	Enter your notebook model name at www.msi.com/support. Find the latest Thunderbolt™ driver and Thunderbolt™ firmware under the "Driver" and the "Firmware" tab of the product download page. Keep them updated by following the update guide to have the most enjoyable user experience on the Thunderbolt™ ports.
